TECHNICAL SKILLS

Frontend

- HTML5, CSS3, Flexbox, CSS Grid
- JavaScript, TypeScript
- React, React Native
- Responsive and accessible UI development

Backend

- Node.js, Express
- REST API development

- SQL, PostgreSQL, MySQL

Database

- Supabase, Firebase, etc...

Tools

- Git, GitHub
- Netlify deployment
- Debugging and code review basics

KEY STRENGTHS

- Problem solving and attention to detail
- Fast learner with practical project experience
- Clear communication and teamwork

EDUCATION

Degree in Computer Science

NIIT (National Institute of Information Technology)

Secondary School Certificate

Inglewood Academy

First Leaving School Certificate

Early Rise Group of School

PROFESSIONAL PROFILE

I build web applications from interface to server logic, with a strong interest in practical software that helps people complete real tasks. My experience includes creating responsive layouts, connecting applications to databases, and improving usability across devices.

PROFESSIONAL EXPERIENCE

Software Developer - Ome Electrical Company

Duration: 6 months

- Developed and maintained internal web applications using React, Node.js, and SQL.
- Implemented responsive user interfaces with CSS Flexbox, Grid, and media queries.
- Worked with application data, forms, and backend routes to support business workflows.
- Collaborated with team members to test features, fix bugs, and improve user experience.

PROJECTS

Dripova Wears

A modern fashion e-commerce storefront with bold visuals, product-focused sections, and a smooth shopping experience.

- Built a responsive user interface with React.
- Designed product sections to make fashion items easy to browse.
- Deployed the project on Vercel.

Photography Business Website

A modern photography portfolio website designed to showcase creative work through immersive galleries.

- Created a clean portfolio layout using React.
- Built responsive sections for gallery and service presentation.
- Focused on simple navigation and visual storytelling.

Ome Electrical Company

A business website for showcasing electrical products, services, and company expertise.

- Built a responsive company website with React.
- Used Supabase for project data and backend support.
- Presented products and service information in a clear, professional layout.

Nova Gadget

A responsive online marketplace for electronic gadgets, built to deliver a fast and engaging shopping experience.

- Built the interface with React and a strong UI/UX focus.
- Used Firebase to support application functionality.
- Designed marketplace sections for gadget browsing and product discovery.

CAREER OBJECTIVE

To contribute to a software team where I can build reliable products, improve my engineering depth, and continue delivering value through clean, maintainable full stack development.
